Richard Parkin,

Per the request of Jeff Parker and receiving a phone call from the Chairman Luki Akelkok, Sr. of the Ekwok Tribal Council I am honored to submit same information per your request to Jack Hobson. In fact I would very much like to work with Jack Hobson.

I was born August 17, 1942, in Aleknagik, Alaska, and became a Tribal Member of Ekwok during their last Tribal Council meeting. I was raised by traditional subsistence hunting and fishing Yup'ik family who were both conservationists in my eyes. Subsistence hunting and fishing was a family affair. Splitting fish and butchering of game and knowing when the seasons were was a shared experience and currently teach my three sons and their children what I have learned.

I graduated from the Dillingham High School in 1963 and attended the Dyke Spencerian Business College graduating in 1965 with a diploma in Accounting. As instructed by my parents after graduation to get a variety of business experiences worked with various organizations as well as the State of Alaska as my last employer as Loan Examiner. As an employee of the Alaska Federations traveled Statewide as a Field Auditor and worked with the Office of Audit and Investigations on the Subcontracts of AFN.

I have served and currently as President for Aleknagik Natives Limited for over 20 plus years which was created under ANSCA and represent them on the Nunamta Aulukestai "Caretakers of our Lands". Also serve on the Nushagak Mulchatna Watershed Council representing Nunamta Aulukestai, The Nushagak Mulchatna Land Trust, and serve as a Trustee for the Aleknagik Natives Limited Settlement Trust as Chairman. Also serve on the St. Seraphim of Sarov Orthodox Church Council.

Many of the organizations are Subsistence oriented organizations for the long term benefit of all their constituents.

Since I am retired I would very much like to serve on the Intergovernmental Technical Committee to assist in a neutral manner on Subsistence Resources in the Region. I believe my experience can assist the EPA on this matter.

Thank You for the opportunity to serve EPA on this very important matter.

Bobby,

I understand from Luki that Ekwok Village Council will nominate you to serve on the Interagency Technical Team for purposes of matters related to subsistence.

I am forwarding to you an email, from Mr. Parkin at EPA. It states the information you should provide in writing.

Best,

Jeff Parker

Subject: Re: Tribal reps on Intergovernmental Tech. Team

Jeff,

Have heard from 1. Would you please have Mr. Hobson submit a short biography

describing his background, experience, education, employment and any other information that provides the basis for his knowledge of the fish resources in Bristol Bay and the ecological factors that support the fishery. Also he will need to confirm that he has been designated by the Tribal government for this effort.

If Jack would like to talk about the purpose of the intergovernmental technical meetings or my expectations about the role the meetings will play, please contact me at 206-553-8574.

Rick Parkin

U.S.EPA, Region 10
